Ahmedabad, India

Career Objective

Aspiring Machine Learning and AI Engineer with a solid foundation in data science and predictive analytics, focused on building intelligent solutions from raw data. Seeking an opportunity to apply machine learning expertise on real-world datasets and deliver AI-driven insights that create measurable business value.

Internship Experience

Data Scientist Intern

Aug 2025 – Feb 2026

Rubix – AI Solutions Company, Bengaluru

- Developed and evaluated machine learning models supporting AI-driven product features, contributing to improved prediction accuracy across multiple client projects.
- Applied data preprocessing, feature engineering, and exploratory data analysis (EDA) on real-world industrial datasets.
- Collaborated with cross-functional teams to design and deliver end-to-end data science solutions aligned with business objectives.
- Documented model performance metrics and generated actionable insights for both technical and non-technical stakeholders.

Projects

Customer Churn Prediction – Business Case

2025

Machine Learning Project | Python, Scikit-learn, Pandas, NumPy, Seaborn

- Built an end-to-end customer churn prediction pipeline using Python and Scikit-learn, achieving an accuracy score of **0.79** on held-out test data.
- Performed comprehensive data preprocessing and EDA to uncover key churn indicators and behavioral patterns.
- Evaluated and compared multiple classification algorithms to select the best-performing model for deployment.
- Delivered visualizations using Matplotlib and Seaborn to communicate predictive insights to non-technical stakeholders.

Krushi-Manch – Digital Agriculture Platform

Jan 2025 – Apr 2025

Bachelor's Degree Project | Web Platform | HTML, CSS, JavaScript, PHP, SQL

- Developed a full-stack digital agriculture platform enabling farmers to sell produce, rent equipment, and manage all farm-related activities on a single unified interface.
- Implemented core features including a digital marketplace, equipment rental module, expense tracker, EMI calculator, and real-time buyer communication.
- Integrated a relational SQL database to efficiently handle product listings, user transactions, and rental records.
- Improved farmer income planning and market access by addressing critical information gaps through transparent UI design.

Skills

Programming

- Python
- SQL

ML / AI Libraries

- Scikit-learn
- Pandas, NumPy
- Seaborn, Matplotlib

Tools & Platforms

- Jupyter Notebook, VS Code
- Git & GitHub

Concepts

- Machine Learning, Deep Learning
- Natural Language Processing (NLP), Computer Vision
- Predictive Analytics, Feature Engineering, EDA

Soft Skills

- Problem-Solving
- Adaptability
- Teamwork & Collaboration

Education

Silver Oak College of Computer Application, Ahmedabad <i>Bachelor of Computer Application (BCA)</i> CGPA: 7.31 / 10	<i>2022 – 2025</i>
R.A. Patel Boys High School, Gujarat <i>Higher Secondary Certificate (HSC) – GSEB</i> Percentage: 69.16%	<i>2021 - 2022</i>
Shree Shajanand Vidyalay, Gujarat <i>Secondary School Certificate (SSC) – GSEB</i> Percentage: 54.0%	<i>2020 - 2021</i>

Certifications

Certified Data Scientist <i>NASSCOM / FutureSkills Prime – Ministry of Electronics & IT, Government of India</i> Certification ID: FSP/2026/6/10294219 Score: 95/100 (95%)	<i>Jun 2026</i>
Data Science Foundation <i>IABAC – International Association of Business Analytics Certifications</i> Certificate No: IAB1120179119	<i>Jun 2026</i>
Deloitte Australia Data Analytics Job Simulation on Forage <i>Deloitte – job simulation involving data analysis and forensic</i> Created a data dashboard using Tableau Used Excel to classify data and draw business conclusions	<i>July 9, 2026</i>
